

South East Lincolnshire Local Plan 2011-2036 Preferred Options Consultation May 2013

Chapter_Name: 14 Appendices

Response_Number:	1072	Persons_Name:	Jenny Young	Representing_Who?:	Heritage Trust of Lincolnshire
Respondents_Comments:	Officer_Response:		Officer_Recommendation:		
Pages 283-9 & site summary. There needs to be appropriate assessment for large development sites indicated for both Boston and Spalding. There appears to have been no consultation on sites referred to on pages 283 to 289 onwards. As Boston Borough Councils archaeological advisor, my advice has not been sought and therefore question how the statement that 'no historic environment constraints' was derived. There appears to be no consideration of historic landscape characterisation and no consideration of setting issues.	Following consideration of the representation, further work will be required on broad locations for housing growth in Boston. These Considerations have been taken forward in the draft Local Plan and are also evidenced in the supporting papers e.g SHLAA and Housing Papers.		Objection - Further work required which could result in a change to the approach.
